PROJECTS

Student Attendance System with Real-Time Alerts

Developed a web-based Student Attendance System to automate attendance tracking and send real-time alerts to students, teachers, and parents.

Built using PHP, MySQL, and Apache Server.

House Rental Management System (Android App)

Developed an Android application for house rental management, allowing users to browse properties and contact owners using Firebase.

ACHIEVEMENTS

Selected for an Industry-Sponsored Project by InnovationsHub Services Pvt. Ltd. for developing a "Student Attendance System with Real-Time Alert" (2025).
